ORGANIZED BY

DEPARTMENT OF MATHEMATICS

AV-hall,
Idhaya College.

About IDHAYA

The college thrives on continuous learning and molding the students in all facets of life enabling them to achieve success in academics and also to approach life with zest and confidence.

About our Department

Mathematics is solving today's biggest and most difficult problems in the world. Five times our students received GOLD MEDALS and brought pride and honor to our college. Every year we have arranged industrial visits & Pondicherry University Library visits for the betterment of students. Our students have participated in many intercollegiate competitions organized by various colleges like PG Centre for Postgraduate Studies, Pondicherry University, etc., and won many prizes. We offer the students counseling regarding placement prospects and opportunities.

"Mathematics reveals its secrets only to those who approach it with pure love, for its own beauty."

VISION

To be a center of excellence in Mathematical Education and Research, fostering critical thinking, problem-solving, and innovation to address global challenges in Science, Technology, and Industry.

MISSION

To cultivate an environment that encourages continuous learning, adaptability and ethical purpose in a changing world.

PURPOSE

To provide a unifying framework for understanding the fundamental mathematical concepts, equipping the learners for deeper thinking with essential tools for advanced study, research, and real-world problem solving. This compact course is designed to make the student simple and clear about the key concepts of Algebra and gain confidence in Mathematics.

RESOURCE PERSON

Dr. T. Asir
Associate Professor
Department of Mathematics,
Ramanujan School of
Mathematical science,
